

PARTNERS PROGRAM

FAQs

Background

GLG is the world's insight network. We leverage our network of more than 900,000 subject-matter experts to help our clients answer their most important strategic, operational, and technical questions. In addition to the world's top private sector companies and firms, GLG serves 300+ Social Impact organizations, including the world's leading nonprofits, foundations, and social enterprises.

Eligibility

Organizations must be registered nonprofits/charities and inclusive in nature. Learn more about eligibility criteria [here](#). (Note that your organization can still be eligible if your country is not listed in the criteria guide.) For help determining eligibility, contact the Social Impact Team [here](#).

Nomination

You've been nominated to participate in the Partners Program by a member of the GLG community. If you're interested, we would like to confirm your eligibility. Please take a moment to complete this [brief form online](#).

How a Project Works

Your GLG project will begin with a call with your GLG project manager to discuss your work and the critical challenges your organization faces. This conversation will help you determine a topic to explore. Your GLG project manager will then connect you with up to five experts, incorporating your feedback on proposed experts, who have relevant insights to help you answer your questions and achieve your goal.

(You can also use this [Project Start Form](#) to brainstorm ways GLG can help prior to your discussion with your GLG project manager).

Timeline for GLG Projects

GLG projects can take anywhere from one week to one month to complete. You will work with your GLG project manager to align on a timeline that makes the most sense for you.

Point of Contact

Multiple members of your organization will be able to participate in phone consultations with GLG experts, but your organization should designate a single point of contact for GLG. Because many GLG projects focus on answering strategic and operational questions, we recommend designating a department head, such as a COO or a Chief Program Officer, as your point of contact.

Past Project Examples

Visit the [Partners Program website](#) and refer to [this one-pager of some past projects](#) for examples of how other nonprofit organizations have used our platform.

Overview

GLG has supported the social sector with in-kind services for more than a decade, and our [award-winning](#) Social Impact Partners Program is designed to further expand access to expertise for nonprofits around the world.

The Partners Program provides eligible nonprofits with up to five free hour-long consultations with experts in GLG's network. Participating nonprofits work with a GLG project manager to pinpoint a key challenge or research topic, scope a project, identify the right experts for their needs, and arrange phone consultations – all at no cost.
